

TORTURING DISFIGURING

Skin, Scalp and Blood
Humours

From Pimples to Scrofula, from
Infancy to Age

Speedily Cured by Cuticura when
All Else Fails.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalded head; the facial disfigurements, as in acne and ringworm; the awful suffering of infants and anxiety of worn-out parents, as in milk crust, tetter and salt-rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent, to cool and cleanse the blood. This complete local and constitutional treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all else fails.

Sold throughout the world. Cuticura Resolvent, 50c. Cuticura Soap, 25c. Cuticura Ointment, 25c. Per box of 50. Cuticura Resolvent, 50c. Cuticura Soap, 25c. Cuticura Ointment, 25c. Per box of 50. Cuticura Resolvent, 50c. Cuticura Soap, 25c. Cuticura Ointment, 25c. Per box of 50.

Biliousness

is a common complaint, very annoying and often serious if the proper remedy be not administered. The secretive organs must be put in a thorough working condition. If you would like to have a relief act as if from a charm, just use

EXPERIMENTS IN IRRIGATION WORK

REND COMPANY LEASES

GOVERNMENT 20 ACRES.

Thorough Experiments in All Phases of Irrigation Work Will Be Under Government Experts—Dr. James Withycombe, of the Agricultural College, Will Lend Valuable Assistance in the Work.

The Deschutes Irrigation and Power Company has placed its entire segregation of 300,000 acres at the disposal of the government and 20 acres will be chosen for a government experiment station.

Two experts will be sent out from Washington, under contract to remain for at least three years, and constant experiments will be made in the proper application of water and the growing of different crops, to bring about the best results on that particular soil.

In three years of this work the proper manner of cultivation and the use of resources of the country and the agricultural world will be brought about.

The government is cognizant of the extent of the territory to be reclaimed by irrigation in Crook county, and in this decomposed lava formation, which is similar to the soil of the Hawaiian Islands, and considered the richest in the world, the best results are expected.

This station is to be established at once, and active work will be carried on next season. There are 30 different methods of irrigation now in practice in the United States, and the experiments will be so carried on as to show which system gives the best results in that soil.

The station will conduct a scientific and practical study of the soil under actual farming operations, and the fact that the work will be conducted under the direction of so eminent an expert as Elwood Mead insures results of the highest value to the country.

Dr. Withycombe, director of the experiment station of the Oregon agricultural college, took an interest in getting the station established, and will lend valuable aid as the work progresses.

AGED ACTRESS.

Mrs. Gilbert Celebrates 84th Anniversary of Her Birth.

New York, Oct. 21.—Scores of congratulatory messages from men and women prominent in the theatrical profession all over the country were received today by Mrs. G. H. Gilbert upon the eighty-fourth anniversary of her birth. Flowers, too, fairly rained upon the venerable actress, and her home, at No. 33 West Sixty-first street was a perfect bower. Never in better health and as eager for work as the youngest beginner, Mrs. Gilbert spent a good part of the day in rehearsing "Granny," the Clyde Fitch show which is to be produced at the Lyceum theater next Monday night, and in which she is to have the principal part.

Mrs. Gilbert is an Englishwoman.

born in Lancashire on October 21, 1821. Her first appearance was on the Norwich circuit as a dancer in 1846. The same year she had married a professional dancer, George Henry Gilbert. They came to the United States in 1849, and she continued as a dancer until 1859, when she began playing leading old woman characters, in which she has acquired her present fame. Her husband died in 1866. In 1869 Mrs. Gilbert entered Augustin Daly's company and remained in it until his death. Since then she has been with Charles Frohman.

WORLD'S RECORD LOWERED.

New Jersey Woman Sets a New Pace on the Typewriter.

Trenton, Oct. 21.—The world's typewriting record on actual practical work has been broken by Mrs. Margaret Cunningham, stenographer in the office of the supreme court here. She wrote 21,089 words of a legal decision, requiring the utmost care, in six and one-half hours actual time, and not a single correction had to be made on the 57 pages covered.

The record is remarkable and discounts one made a short time ago in the Washington patent office by Miss Olive H. Cameron of Tennessee, who wrote 32,000 words in a working day of seven, and one-half hours, using only one sheet at a time.

Mrs. Cunningham was compelled to make eight manifold copies, which necessitated handling 513 sheets of paper and 399 carbon sheets, nearly eight times as many as used by Miss Cameron. Mrs. Cunningham has been highly complimented not only by the justices of the court, but by the whole staff of attaches.

GROVER CLEVELAND SPEAKS.

Will Preside Over Business Men's Parker League.

New York, Oct. 21.—There was an unusual air of bustle about the democratic headquarters today caused by the activity in completing arrangements for the mass meeting in Carnegie hall tonight, under the auspices of the Business Men's Parker and Davis Association. The announcement that former President Grover Cleveland is to preside has caused more interest to be taken in the demonstration than has attached to any of the political rallies held in New York so far during the present campaign.

Though the former president has made it plain that he does not intend to deliver a speech it is generally expected that he will have a few words to say in expression of his views on the issues of the present campaign and of endorsement for the national ticket. The principal address of the evening will be delivered by John G. Carlisle, ex-secretary of the treasury.

High School Commercial Teachers.

New Haven, Conn., Oct. 21.—President Hadley, of Yale, will deliver the address of welcome this evening at the formal opening of the second annual meeting of the New England High School Commercial Teachers' association. The particular object of the association is to elevate the standards of education in the commercial lines and to place commercial education upon a level with other branches of high school instruction.

Minnesota Y. M. C. A.

Winona, Minn., Oct. 21.—The Young Women's Christian association of Minnesota is holding its 20th annual convention here with headquarters at the Central Methodist church. The visitors number more than 100 and come from all parts of the state. The universities and schools are especially well represented. The sessions will continue three days during which time the convention will be addressed by several speakers of note.

Y. M. C. A. Conference.

Temple Texas, Oct. 21.—A large and representative attendance marked the opening here today of the annual state conference of Y. M. C. A. secretaries and physical directors. Prominent among those who participated in the day's proceedings were F. W. Hopper of Waco, Samuel Warr of Cleburne, M. H. Selter of Temple, A. G. Irons of San Antonio, and T. C. Horton of Dallas. The conference will conclude its sessions tomorrow.

Indiana W. C. T. U.

Columbus, Ind., Oct. 21.—The state convention of the Women's Christian Temperance Union began here today with a gratifying attendance. The sessions are being held in the Tabernacle church, with the state president, Mrs. Cullie Veyinger, presiding. The program covers three days and provides for several addresses and features of entertainment in addition to the transaction of the regular business.

Salvation Army Conference.

Dallas, Texas, Oct. 21.—Officers of the Salvation Army in Texas, gathered in Dallas today for their annual council and meeting. Upward of 50 officers, representing every corps in the state, are in attendance.

DEAD MAN RUNS ENGINE.

Passenger Engineer Sat Upright in His Cab, Stone Dead, for Miles.

McCook, Neb., Oct. 21.—A Burlington passenger train was thundering through the darkness on its way from McCook to St. Louis late last night, while the engineer sat upright in his seat, with his hand gripping the throttle, dead.

The engineer was James O'Connell. The train had reached a point some distance from here and was running at a high rate of speed, when the fireman happened to glance at the engineer and observed that a pallor had overspread his face and that his body appeared rigid. The fireman went over and touched the engineer and was shocked to discover that he was dead, and evidently had been dead for a number of minutes.

The fireman ran the train back to McCook, and, when another engineer had been supplied it went on to St. Louis. Had the engineer's death not been discovered and the train stopped before it reached a station it was approaching, it would have collided with a train coming from the opposite direction and lives would possibly have been sacrificed.

Welcome Bishop Cranston.

Washington, Oct. 21.—In Foundry M. E. church tonight all the Methodist ministers of the District of Columbia, together with representatives of the congregations of all the Methodist churches will gather to welcome Bishop Earl Cranston, who comes from Portland, Or., to become resident bishop of the District of Columbia. Rev. J. C. Nicholson, pastor of Trinity church, will preside and there will be addresses delivered by some of the best known pulpit orators of Washington.

THE GREATEST EPOCH OF MARRIAGE

The first is the most crucial time. If for the first time the greatest event in your married lives is about to occur, how expectant, how wrapt up in it you find yourselves.

You try to overlook, but in vain, that element of uncertainty and danger that you have been led to expect from the experience of those mothers and fathers who have struggled through this ordeal in ignorance of

Mother's Friend

what it is, and what it does.

If at this time every expectant man and wife might know of this greatest of boons, devised for the express purpose of alleviating and dispelling the suffering and consequent danger of child-birth, how quickly would all doubt and worry be dissipated.

Mother's Friend is an invaluable liniment for external massage, through whose potent agency countless mothers have been enabled to experience the joy of parturition for the first time without danger to themselves or their offspring.
